

RUBRICS

- A rubric is a tool used in education to assess students' performance based on a set of criteria and standards. It provides a clear outline of what is expected for an experiment and details the levels of performance for each criterion. Rubrics help ensure consistent and objective grading by clearly defining what constitutes different levels of achievement.

LOGIN TO STAFF DASHBOARD

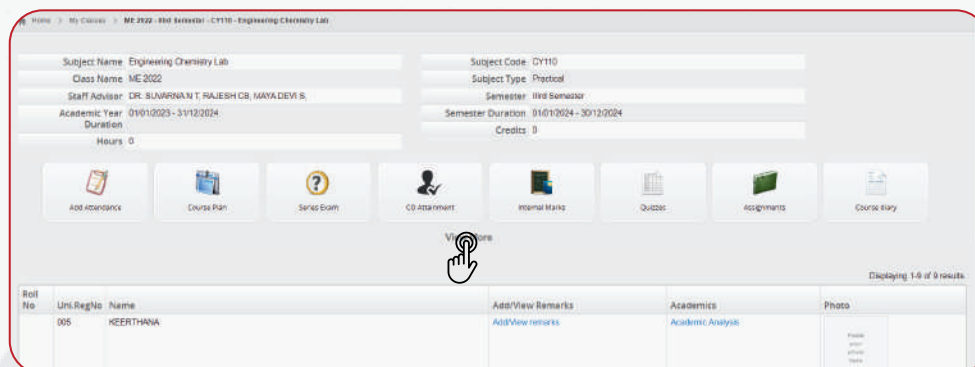

- To evaluate rubrics effectively, you must follow these steps:
- Choose my class from dashboard

- select your practical subject

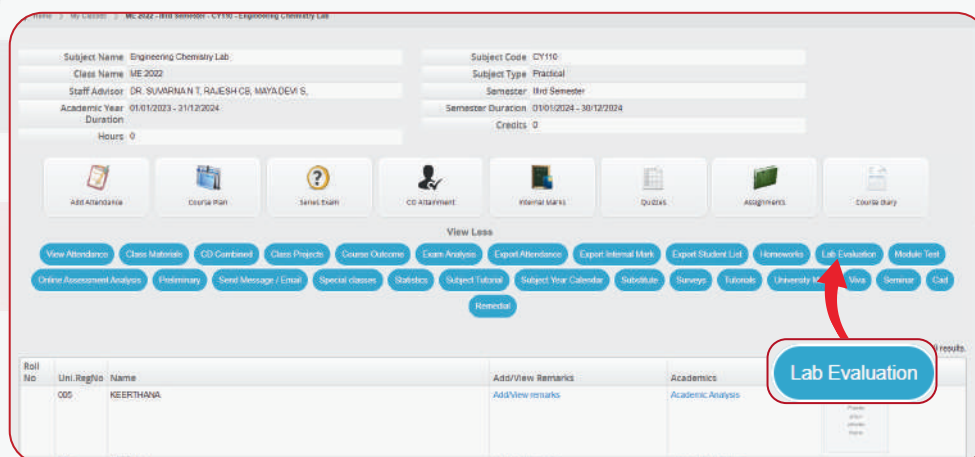

MTECH-EC 2022				0	1st semester - Timetable,Class Timetable • MTECH_02 - MTECH SUB 2	
ME 2022	DR. SUVARNAN T. RAJESH CB, MAYA DEV S.	0	IIrd Semester - Timetable,Class Timetable • MET201 - MECHANICS OF SOLIDS • CY110 - Engineering Chemistry Lab	50	IIrd Semester(2022-23) - Timetable • PH100 - Engineering Physics	
EC 2K19A	DR. SUMI M.	50	IIrd Semester - Timetable,Class Timetable • EC201 - NETWORK THEORY			
ME 2K19 A	HARI R.	50	IVth Semester - Timetable,Class Timetable • RE103 - Introduction to Sustainable Engineering • MA202 - PROBABILITY DISTRIBUTIONS, TRANSFORMS AND NUMERICAL METHODS			
CE 2252C		0	1st Semester - Timetable,Class Timetable • MAT 101 - LINEAR ALGEBRA AND CALCULUS			
CE 1st	SAJI M S.	0	1st Semester - Timetable,Class Timetable • CE100 - Engineering Mechanics			
CE 2K19 B	VARSHAV	50	Vth Semester - Timetable,Class Timetable • MAT102 - VECTOR CALCULUS, DIFFERENTIAL EQUATIONS AND TRANSFORMS			
ME 2023		2	1st Semester - Timetable,Class Timetable • CE307 - SURVEYING			

➤ Click view more

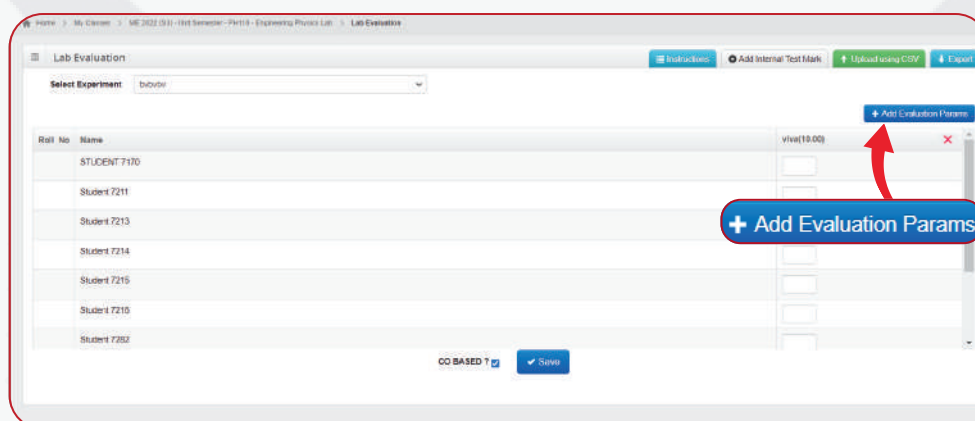

The screenshot shows the 'View More' button being clicked. The page displays course details for 'Engineering Chemistry Lab' (Subject Code: CY110, Class Name: ME 2022). Below the details are icons for 'Add Attendance', 'Course Plan', 'Series Exam', 'CO Assignment', 'Internal Marks', 'Quizzes', 'Assignments', and 'Course Story'. A table at the bottom shows student data with columns for Roll No, Uni.RegNo, Name, Add/View Remarks, Academics, and Photo.

➤ click Lab evaluation

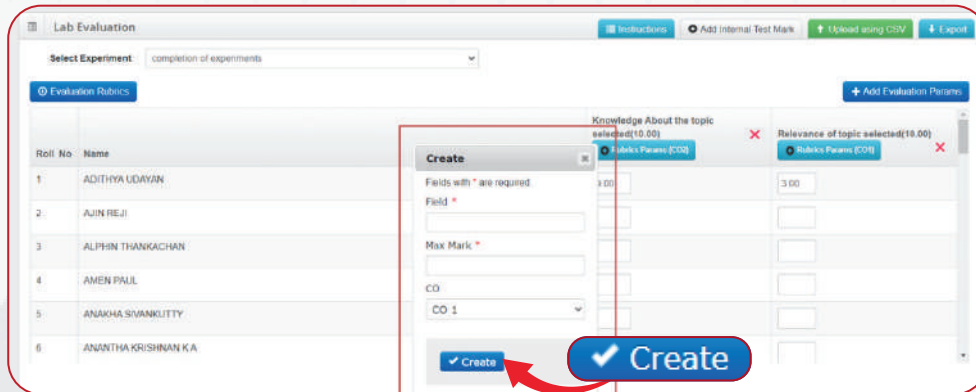

The screenshot shows the 'Lab Evaluation' button being clicked. The page displays course details for 'Engineering Chemistry Lab' (Subject Code: CY110, Class Name: ME 2022). Below the details are icons for 'Add Attendance', 'Course Plan', 'Series Exam', 'CO Assignment', 'Internal Marks', 'Quizzes', 'Assignments', and 'Course Story'. A table at the bottom shows student data with columns for Roll No, Uni.RegNo, Name, Add/View Remarks, Academics, and Photo.

➤ Select experiment → after selecting the experiment click on “Add Evaluation Params”

The screenshot shows the 'Add Evaluation Params' button being clicked. The page displays the 'Lab Evaluation' section with a table of students. The 'Add Evaluation Params' button is highlighted. The table has columns for Roll No, Name, and a status column. The status column shows 'viva(10.00)' for the first student.

- To create Evaluation Params, fill all the required fields in the popup view like Field, Max Mark and CO.

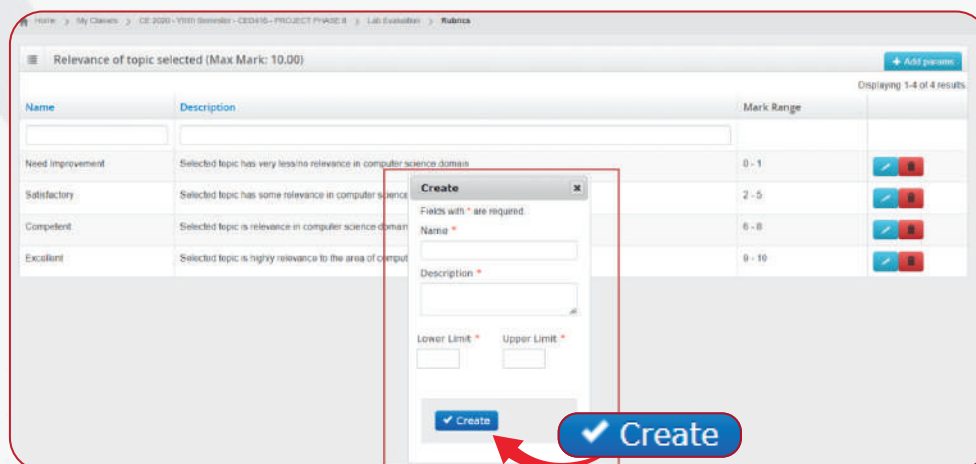

The screenshot shows the 'Lab Evaluation' interface. On the left, there is a table with columns 'Roll No' and 'Name'. The table contains six rows of student data. On the right, there is a 'Create' popup window for adding evaluation parameters. The popup has fields for 'Field', 'Max Mark', and 'CO'. There are also buttons for 'Add Evaluation Params' and 'Create'.

- After successfully adding evaluation params, you must include rubric params within those evaluation params. To do so, follow these steps:

- Click Rubrics Params → click "Add Params" button displayed on top right corner.

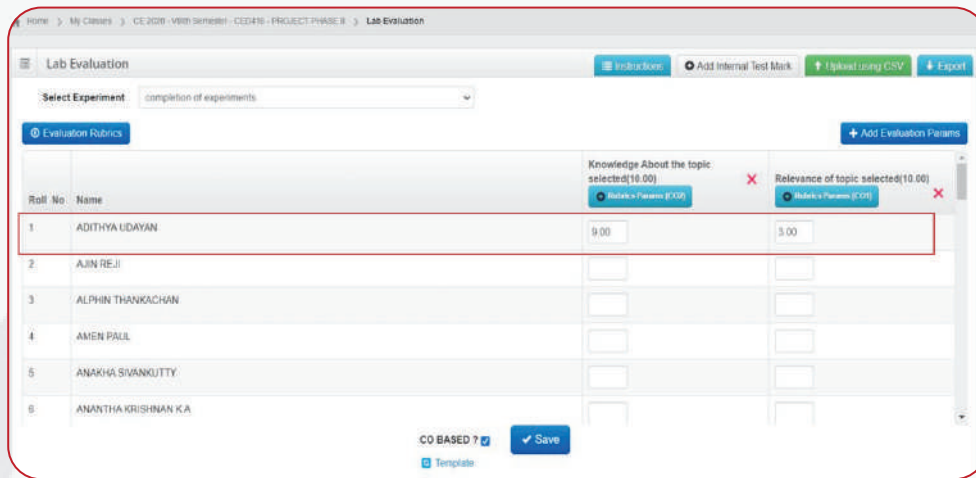

- To Add Params, fill all the required fields in the popup view (all fields are mandatory)

➤ **Note :** [Each mark limit should be unique, meaning that a mark limit in one criteria must not be included under another criteria.]

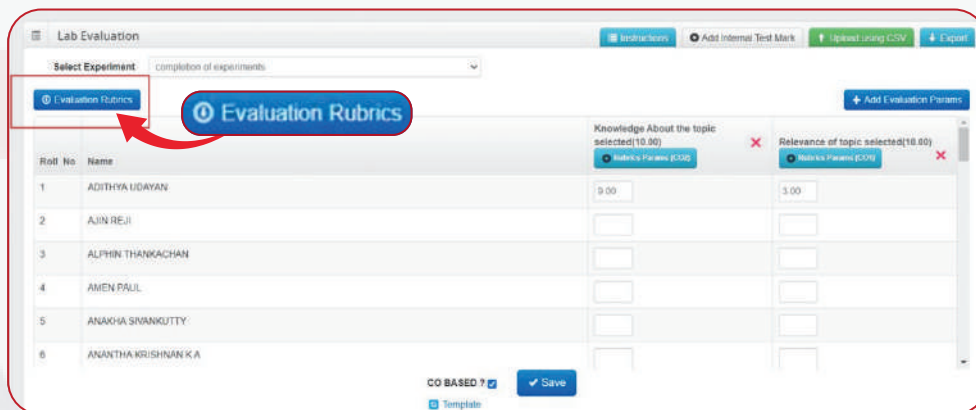

The screenshot shows the 'Relevance of topic selected' interface. It features a table with columns 'Name', 'Description', and 'Mark Range'. The table contains four rows of rubric criteria. On the right, there is a 'Create' popup window for adding rubric parameters. The popup has fields for 'Name', 'Description', 'Lower Limit', and 'Upper Limit'. There are also buttons for 'Add Params' and 'Create'.

- After completing all these steps, you have option to add marks in that particular experiments for the students present in it.

- To get the performance rank report of all students, click on “Evaluation Rubrics” button

- There is an option to import evaluation parameters that have already been added by other staff. After importing, the rubric parameters included in the evaluation parameters will also be available for use.
